COAL Hard Coal, \$8.75 a Ton
stop Burning UP Your Money each winter by using the larger
sizes of coal. It is absolute waste.
With the Electrically operated Duplex-Air-Turbine attached to

With the Electrically operated Duplex-Air-Turbine attached to your furnace (any type) you can use the smaller sizes of hard coal which cost only \$8.75 a ton, and you won't use as many tons of the smaller sizes. BURNED IN THE MODERN WAY, as you would of the larger sizes burned in the old way.

You can have all this coal you want without reference to the Fuel Commission. Unlimited supply available for immediate delivery. The Turbine, including thermostat, sells for \$85 installed. Time payments can be arranged.

The electric current consumed in its operation averages about \$6 cents per ton of coal burned. No change in grates necessary.

The fact that YOU CAN HAVE ALL THE HEAT YOU WANT THIS WINTER is worth considering, but the main consideration is the enormous savings in actual dollars and labor, too, in the years to come.
